## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1, 20, 57 and 60 are generic to a plurality of disclosed patentably distinct species comprising Species (I), including claims 2-19, 39-56, 58-59 and 63-64, which directs to the use of two transparent bodies wherein at least one surface of the bodies which are opposite to each other is a rotationally-asymmetrical surface; and Species (II), including claims 21-28 and 61-62, which directs to the use of two transparent bodies wherein each surface of the bodies which are opposite to each other is a plane surface. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Gary Jacobs on 09/19/2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
